INTERNAL FACULTY GUIDE

Mr.DIGANT PARMAR

Abstract

- The project aims to develop a platform that provides information, resources, and tools to support individuals in improving their physical, mental, and emotional well-being. It integrates health awareness, daily tracking, stress management, and lifestyle improvement through user-friendly digital solutions. The goal is to encourage holistic development by offering reliable content, interactive features, and personalized recommendations.

Introduction

- Health and wellness focus on physical, mental, and emotional well-being.
- Modern lifestyle challenges: stress, sedentary habits, poor diet.
- Motivation: Growing need for digital solutions for holistic wellness.
- Aim: To create a digital platform addressing these needs.

PROBLEM STATEMENT

Problems in current lifestyle:

- People have busy schedules and ignore health.
- Lack of proper diet and exercise.
- Mental stress and anxiety are increasing.
- Health information is scattered across different apps.

There is a need for a **single platform** that manages overall health and wellness.

OBJECTIVE OF PROJECT

Objectives of the project are:

- To create a centralized health and wellness platform
- To provide fitness tracking and daily health monitoring
- To offer diet and nutrition guidance
- To support mental health through meditation and mood tracking
- To provide AI-based health recommendations

User can create account with basic info or Users can log into the platform using their email and password .

Secure authentication ensures that personal health data remains protected.

DASHBOARD AND AI CHATBOT

->The dashboard displays user health statistics such as:

- Daily steps
- Calories burned
- Water intake
- Mood status
- Health progress

The AI assistant helps users by:

- Answering health-related questions
- Providing fitness tips
- Suggesting diet plans
- Giving motivational messages

OTHER FEATURES

CONCLUSION

The Health & Wellness Platform helps users manage their physical and mental health in one place.

It provides easy access to fitness tracking, diet planning, and mental wellness support.

The platform encourages people to adopt healthier habits and improve their overall lifestyle.
